Plan Submittal Guide
“Our Goal is a Safe Environment”

REVISED 10/16/2017
This pamphlet was prepared to help you plan your building project. By properly submitting the necessary information, the Building Department Staff will be able to swiftly process your zoning permit application. Your project will be evaluated to confirm compliance with the Zoning Ordinances as adopted by Warwick Township. The Code facts presented in this pamphlet are not all inclusive, but are intended to highlight questions and areas that are frequently asked.

Upon issuance of the Zoning Permit, the permit placard should be posted and visible from the public right-of-way. The inspection schedule should be on site for verification and signature at time of inspections.

Along with the application, a plot plan and any supplemental information must be submitted before the plan will be reviewed.

The permit applicant, and ultimately the owner, is responsible for making arrangements for inspections. Construction must not proceed until each phase has received approval. Please refer to the property address and building permit number when scheduling an inspection.

Please remember that structures should not be used until a Final Inspection has been completed.

If you have any questions concerning your project, please call the building department office.

Thank you,
Code & Building Department
